

# HP75

## TOTAL PACKAGE

**ONLY 75' AERIAL IN THE INDUSTRY WIDE ENOUGH FOR STOKES RESCUE**

**PIN-FREE JACK SYSTEM DEPLOYS IN UNDER 40 SECONDS**

**W**ith over 24 years of aerial experience and ZERO structural failures or tipovers, E-ONE continues delivering on our founding principles of innovation and safety.

E-ONE's HP75 features an extruded aluminum ladder that exceeds NFPA's 1901 requirements with a 2.5 to 1 structural safety factor. No other manufacturer consistently offers you this commitment to safety. In addition, the aluminum aerial will not rust, or need painting and with no rung covers to replace, the HP75 delivers the lowest life cycle cost of any aerial.

With the combination of generous compartmentation, ground ladder storage, hosebed and tank size, the HP75 outperforms, outmaneuvers and costs less to maintain than the competition. Complete the scorecard on the back page to compare E-ONE against the competition.

E-ONE's HP75 – the total package.
