

E-ONE TRADITION

TYPHOON PUMPER

WITH THE OPTIONAL EXTENDED ENHANCED BODY, THE TYPHOON PUMPER OFFERS AN EXTRA 10 CU. FT. OF STORAGE SPACE.

The E-ONE Tradition Typhoon Pumper is the finest entry-level, custom chassis on the market. Providing superior occupant protection with the industry's most durable roll cage, this pumper allows your department more usable storage including optional locking medical cabinet space, allowing quick access to medical supplies from inside or outside the apparatus. The E-ONE Tradition Typhoon Pumper helps save precious seconds when it matters most—on the scene.

Spacious compartments provide flexible storage options for loose rescue equipment, while inside the cab four to six firefighters can comfortably ride in full turnout gear. The E-ONE Tradition Typhoon Pumper easily adapts to a wide variety of needs and budgets.

Practical and easily customized to you—the E-ONE Tradition Typhoon Pumper.

ROLL-UP DOORS OFFER INSTANT ACCESS TO ALL GEAR.

OPTIONAL ELECTRIC DROP DOWN LADDER STORAGE PLACES LADDERS AND EQUIPMENT AT GROUND LEVEL.

WHAT WE STAND FOR

Since our founding in 1974, E-ONE is the brand you've come to trust when lives are in the balance and seconds count. Our success over the past 30 years comes from delivering on the core values instilled by our metallurgist founder Bob Wormser. Wormser instilled the values of listening and safety into everything E-ONE provides. In short, we deliver solutions to your apparatus needs that are among the safest in the industry.

Responding to calls and fighting on the front lines is complex and dangerous work. Nothing brings our team greater pride than hearing your stories of success – how lives and property were saved. Although we can't be with you on the front lines, we share your mission of controlling the scene. From our largest aerial to our

most compact Vehicle Information Control (VIC) system, everything we manufacture is designed to help you gain control.

DEALER

NETWORK The most valuable key to the ongoing success of E-ONE is the superior networks, relationships, and customer service offered by all of the E-ONE dealers across North America.

EZ-LEASE

Financing your purchase and not sure how you can afford the vehicles for your fleet? E-ONE's parent company, Federal Signal

Corporation can help.

Over the past 20-years, Federal Signal Leasing has financed more than \$1 billion of equipment purchases by municipalities and qualified VFD's. Leasing frees up your cash, allowing you to purchase more equipment, sooner.

The program is easy to understand. There are no hidden fees, points, gimmicks, third parties to manage, loan applications or bank meetings to attend. Most transactions are completed within days.

Why take advantage of EZ-Lease? You lock in today's low rates and don't make payments until after you take possession of the apparatus. Ask your dealer for more information on how Federal Signal Leasing can make life easier for your department.

Federal Signal Leasing – making apparatus purchases become a reality.

WHEN LIVES ARE IN THE BALANCE AND SECONDS COUNT.
